BHARGAV BHINSARA

NANAPONDHA, VALSAD | 9586167557

bhargavbhinsara@gmail.com

I am a seasoned IT professional with a focus on continuous growth and adaptability. My proficiency covers the entire spectrum of the software development lifecycle, including design, deployment, and proficient database management. I excel in debugging, testing, and possess robust abilities in client communication and project management. Presently, I am in search of an opportunity that optimizes the potential of a skill set, harnessing its capabilities to the maximum extent.

PROFESSIONAL EXPERIENCE

- **Software Developer,** WebKnight Infosystem (June 2023 – July 2024)
  - Developed robust web applications using PHP and Laravel framework, focusing on scalability and performance optimization.
  - Designed and implemented RESTful APIs to facilitate seamless communication between various services and platforms.
  - Collaborating seamlessly with frontend developers for seamless integration, providing cohesive and user-centric solutions.
  - Contributed to providing efficient solutions to meet client requirements and enhance user experience.

- **Web Developer,** Computer Education and Cybernetics (CEC) (February 2023 – May 2023)
  - Developed web applications using the Python framework Django.
  - Contributed to web design and development on PHP based projects.
  - Led the development of a cryptocurrency trading web application.

- **JavaScript Developer Intern,** Vnurture Technologies (Summer Internship)
  - Gained knowledge of the JavaScript library (ReactJS).
  - Worked with axious, redux, react-router DOM, and tailwind CSS.
